ABOUT US

Bloggers of Zambia is an independent, not-for-profit organisation that was established in the year 2017. Our thematic areas of work are; Digital Rights, Press Freedom, Civic Tech and Media and Information Literacy.

Our mission is to create an open society where digital rights and the rights-based offline and online media platforms are guaranteed and protected

INTRODUCTION

Bloggers established the Lusaka Internet Meet-Up in 2019. This is an in-country, annual, multistakeholder signature event that convenes different groups who are interested in the area of digitalisation in Zambia. The event is meant to promote an affordable, free, open, resilient, and inclusive internet for all in line with global best practices. The stakeholders include civil society, academia, regulators, media, law enforcement, lawyers, policymakers, legislators, service providers, technologists, government agencies and ministries etc to share experiences, policy directions, and legislative processes and to network on issues of digitalization. The Lusaka Internet Meet-Up is also open for participation from interested groups and partners from abroad who are keen on supporting the in-country event.

The Lusaka Internet Meet-Up also looks at how various stakeholders can exchange ideas, knowledge and establish collaborations on how we all can amalgamate our efforts and make recommendations on how to harness the digital transformation in terms of law and policy processes, regulations, education and awareness etc. The Lusaka Internet Meet-up is an opportunity to advance conversations and collaborations regarding the challenges and opportunities of the digital transformation that is rapidly taking place in Zambia.

The Lusaka Internet Meet-up is a platform for capacity building and an opportunity to galvanize important legal and policy recommendations for consideration by policymakers, legislators, regulators and law enforcement on key Digital Rights and Internet Governance issues.

The 2024 Lusaka Internet Meet-Up will be held at Lusaka's Taj Pamodzi Hotel on July 17 and 18 2024 under the theme, **“Leveraging Zambia’s Digitalization Agenda in the Age of AI”**.

 - Mixer (Meet and Greet Networking Session)
- 

The background of the slide is a photograph of a resort. In the foreground, there is a swimming pool with blue water, surrounded by a grey stone-paved deck. To the right of the pool, there are lounge chairs and closed patio umbrellas. In the background, there is a multi-story resort building with balconies, surrounded by lush green trees and palm trees. The entire image has a dark grey semi-transparent overlay.
